On the occasion of the OIE General Session 2001, the FAO EMPRES team is pleased to announce the launch of a major new multimedia resource CD-ROM and Website, **Good Emergency Management Practice (GEMP) © FAO, 2001.**

GEMP is the most comprehensive resource of its kind ever published and is available to OIE delegates *at no charge* from the EMPRES office in FAO Rome.

Good Emergency Management Practice (GEMP)

In order to prepare well for a possible animal disease outbreak, good planning is essential, to a high level of precision and detail. Following on its decision to promote a standard policy for the management of emergency situations, EMPRES has now developed Good Emergency Management Practice (GEMP) for your use.

GEMP is a highly practical, comprehensive, authoritative resource for all stakeholders in the prevention, management and remediation of animal disease emergencies. Using it will enable you and your staff better to:

- Understand the objectives of GEMP
- Train to face emergency challenges
- Implement standard planning and response procedures (SOPs)
- Detect risk and actual disease early in a given animal population
- Predict the likely disease spread & Limit the outbreak
- Target disease control activities
- Regain disease-free status in your country more quickly, according to the International Animal Health Code of the OIE

The GEMP CD-ROM contains:

- ❖ Comprehensive descriptions of best policies and practices
- ❖ Authoritative manuals, written new or completely revised for GEMP
- ❖ SOPs and interactive checklists for emergency preparedness planning and response
- ❖ AVIS series Overview programs on
 - ❖ ASF
 - ❖ FMD
 - ❖ Rinderpest
 - ❖ Rabies *and many more*
- ❖ Hundreds of diagnostic photographic aids, Video clips, diagrams, maps

To request your complimentary copy:

Fill in the attached form and give it to: Dr. Malika Moussaid or Professor Julian Hilton (Aleff Group, the program producers) in the course of the General Session, who will be
